HAVAS

Berlin, March 20 (evening)—The Emperor has sent a message to Bismarck accepting his resignation and regretting the divergence between them, thanking him at the same time in most complimentary terms for the important services rendered by him to the country and the dynasty.

Berlin, March 21—General Caprivi has been appointed Chancellor and President of the Council. By imperial decree, the rank of Field-Marshal has been granted to Bismarck, likewise the title of Duke of Lauenburg.

Lisbon, March 21—Telegrams received to-day deny the alleged occupation of the Shire by the English.

GALVESTON.

Berlin, March 21st—A special edition of the *Imperial Gazette* publishes decrees issued by the Emperor, cordially thanking Prince Bismarck for his services, and bestowing the titles of Duke of Lauenburg, Colonel-General of Cavalry and Field-Marshal General; Count Herbert Bismarck is appointed Minister of Foreign Affairs ad interim and General Caprivi Chancellor and President of the Prussian Ministry. Dr. Lucius von Ballhausen, Chief of the Civil Cabinet, accompanied by General Hahnecke, has communicated to Bismarck the Emperor's acceptance of his resignation The Emperor has sent to M. Jules Simon the order of the Red Eagle.

London, March 21st—Lord Salisbury has called a meeting of his supporters in the House of Commons to-day, at the Carlton Club, to discuss important matters of policy.

Bismarck's resignation has caused an immense and sympathetic sensation amongst his countrymen. The complete confidence in the safety of the Empire created by him will soon disappear.

Berlin, 21—Ministers Furth and Maybach have sent in their resignations, the latter on account of the retirement of Bismarck. Count Herbert Bismarck will receive an ambassadorship. The Labour Commission has agreed upon the exclusion of children under 12 years of age from all factories. The *Tagblatt* says that the Emperor has dismissed his Majordomo, Count Waldersee. General Caprivi will not take the portfolio of Foreign Affairs. Amongst other rumours as to the real cause of Bismarck's resignation, it is said that the Emperor proposed to abolish the office of President of the Ministry, to which Bismarck strenuously refused to consent.

A decree has been issued appointing the following Gefes Politicos for the Departments:—Salto, Colonel Cordoba; Rio Negro, Luis Batlle; Soriano, Gregorio Sanchez; Colonia, Colonel Tezanos; San Jose, Andres Cachan; Canelones, A. Chucarro; Minas, Colonel Esteben; Maldonado, Elias Devicenza; Rocha, Pedro Lapeyre; Artigas, Lieut.-Col. Secuerder; Cerro Largo, Alejandro Bresque; Tacuarembo, Col. Escola; Rivera, Col. Escobar; Florida, Dr. Antonio Sheppard; Flores, Ruperto Mendez; Durazno, Col. Castro; Treinta y Tres, Washington Bermudes. These appointments, with two exceptions, have met with general approval even from the independent Press, and are considered progressive. The predominence of the civil element is welcomed as a novelty.

Several arrests have been made in connection with the murders mentioned yesterday: the brother of one of the victims is suspected.

The fall in National Bank shares is attributed to the disquisting rumour that there is a 'descubierto' of three millions in the Government account current, and that Baring Brothers have closed their credit; no foundation for these tales can be discovered, and they are probably a speculative device. The Bolsa depression still continues: Obras (fluctuating) closed at 37.75, National Bank at 108. General business is rather dull; land sales quiet.

REDUCTION IN THE BUDGET

CUSTOMS DUES IN GOLD

SUPPRESSION OF RAILWAY GUARANTEES

BOLSA LEGISLATION

THE JOINT STOCK COMPANIES

The following are the decrees of the Government issued last night. We reserve further remarks for our next issue owing to the lateness of the hour.

Buenos Aires, March 21st, 1890.

Considering:—

1st—That, notwithstanding the flourishing condition of the National Treasury which relies on sufficient elements to meet all home and foreign obligations, it is the duty of the National Executive to adopt measures to strengthen the credit of the nation and provide against emergencies that might arise from the present monetary difficulties.

2nd—That the best means to this end is retrenchment, embodying a reduction in the Budget of expenses for the year, the suspension of works voted in special laws and of no indispensable nature, and, finally, in removing the burden of fresh guarantees granted on railroad concessions, by suspending the grant of deeds on such concessions.

3rd.—That it is also the duty of the Executive to guarantee the service on its gold debt, as a means of strengthening its credit and inspiring confidence to the nation's bondholders; that it is also its constitutional mission to protect national labour, national industry and production, to radicate immigration and preserve equilibrium between imports and exports:—

The President of the Republic

DECREES

Art. 1st.—The expenses of the Budget, consigned in the appended statements in detail are hereby suppressed or reduced, according to the figures in said statements. These shall be sent to the Contaduria General after endorsement by the Minister of Finance.

Art. 2.—The expenses assigned by special votes for the current year are hereby reduced to one million dollars, and this sum shall be paid out in Cabinet council to meet urgent and indispensable expenditure.

Art. 3.—From the 1st of next April the "Contaduria General," under serious responsibilities, shall refrain from liquidating any account affected by the suppressions or reductions in Art. 1st.

From the same date all extrasalaries and all supernumary employees shall cease, if not included in the reduced budget.

Art. 4.—Every concession granted by law of Congress and entailing a guarantee of the nation or a burden on the Treasury, and whose title deeds have not been signed up to the date of the present decree, is hereby suspended.

Art. 5.—The Budget of 1891 shall be presented to Congress with the same estimates as that of this year, previous to the present reductions and suppressions in this decree.

Art. 6.—The Minister of Finance shall draw up a bill before Congress to amend the Taxation Law in a manner to allow the collection of a certain amount of taxes in paper money in the gold equivalent of that paper money on the day of payment of such taxes, in order to protect in a more direct and efficient manner national production and national industries.

Art. 7.—Let this be communicated, etc.

Whereas (1) joint stock companies derive their legal existence from the authority granted by the Government on the approval of the statutes and by granting incorporation; (2) that the law in force by allowing these companies to issue bonds of credit, without involving the personal responsibility of the shareholders, has imposed certain conditions, the fulfilment of which should be watched by the Government in the public interest; (3) that within the last few months, numerous companies have been formed in this city with capital, it being therefore necessary to inquire into their state and ask them to reduce their capital, if not paid-up, or to present a bill to Congress with a view to protect public interests.

The President of the Republic

DECREES

Art. 1.—Mr. Leopold Basavilbaso is hereby commissioned to report on the state of the joint-stock companies in this city.

Art. 2.—The commissioner is hereby authorised to ask the managers of these companies for the statements and data required, as well as the books if necessary.

THE NEW FINANCIAL PLAN

The world at large is aware that for the last three weeks the Argentine Cabinet has been holding daily sittings to draw up an exhaustive plan that may eventually avert the crisis in the market and hasten a return to specie payments. The intense anxiety of the country has been relieved at last, and now the people know the remedial measures that will be carried out to relieve the financial infirmity of the market. The remedies are four fold:

The first remedy is a bitter pill: its effect will be an economy in the budget to the amount of ten millions of depreciated dollars. The intrinsic amount of this economy in expenses is four millions gold dollars, say £800,000 It is not very much, but it is better than nothing. It is understood that the Government will be inexorable and that this retrenchment will be enforced "coute que coute". This is most satisfactory, and all will applaud such a prudent determination. It is insinuated that some further economy may be effected, but there is not the same determination in this regard, and there is a pale hue of irresolution cast over this side of the question.

The second remedy is the favorite old prescription to purge the Bolsa of its errors and passions. A committee will be appointed to draw up the proper regulations to curb speculation and prevent the antipatriotic crusade against the value of the country's currency. Mr. Rufino Varela, whose experience in these matters is of great value, is one or will be one of the members of the committee.

The third remedy embodies a vigorous inspection of all the operations of joint stock companies, to safeguard the interests of the public and shareholders. Everybody will welcome this innovation, for it is badly wanted. This inspection will seal the fate of all bubble companies and save the market from a repetition of the stock crisis the market is at present suffering from. Inexorable supervision is needed in this particular line of business, and the market and the investing public will applaud any energy displayed in such quarters.

The second and third remedies are not precisely prescribed as direct agents to meet the emergency of the present crisis; but they will act as tonics when the patient is out of danger and in the convalescent stage.

The fourth remedy, like the first one, is active. It will provide for partial payment of Customs dues in gold; it is supposed that 25 o/o of the dues will be payable in gold and 75 o/o in paper. This is quite rational, as the depreciation of the currency is a terrible drain on the National treasury in the payment of gold obligations Supposing that these obligations amount to ten millions per annum, the paper needed to supply that amount would exceed 25 millions, nearly 50 o/o of the whole budget. The Government acts in self-defence by collecting a fraction of the dues in gold. Furthermore, this remedy will be a guarantee that the Government will not resort to a forcible "forced currency" law, to do away with all gold business in the market. For some days past the whole market has been trembling at the rumor that such a decree would be passed: the result would be chaos. But such an eventuality is now out of the question, and the mind of the market is at peace.

The four remedies we have chronicled above appear in Government decrees in another column. The remedies are of a very lenient nature for a patient of such robust constitution as this republic and suffering from such a financial fever as a stock and monetary crisis. Yet these remedies may be followed up by some more energetic prescriptions: the sooner they are administered the better for the patient.

CROSSED CHEQUES.

The use of crossed cheques, which are to come into force on 1st May next, will afford many advantages and safeguards to the commercial community, and there is little doubt, that the system of paying all accounts and settling all claims by cheque will now receive an impetus, and become much more general than it has ever been in Buenos Aires.

Let us glance at the new law, which, by the way, is almost identical with Sects. 76 to 82 of the English "Bills of Exchange Act 1882." According to the new "Codigo de Comercio" there are two kinds of crossed cheques—general and special. A cheque which bears across its face two parallel transverse lines with the words "no negociable," is said to be crossed generally, that is to say it may be paid into any bank for the credit of the holder. A cheque is said to be crossed specially, when between the transverse lines is written the name of a bank with or without the words "no negociable." Such a cheque *must* be paid into the bank whose crossing it bears. Cheques may be crossed generally or specially by either the drawers or holders. The holder of a cheque crossed generally may cross it specially. The holder of a cheque already crossed specially may add the words "no negociable," but the crossing once made cannot be altered, as it is considered a material part of the cheque, and no bank will pay a cheque the crossing of which has been in any way altered or obliterated.

The words "no negociable" on a cheque do not mean, as might be supposed, that its transferability is limited. It may, if payable to order, be transferred by endorsement, and by delivery if payable to bearer, the same as any other cheque. The words are simply to imply that the transferee cannot have or give a better right to the cheque than the previous holder had, and they will act as a warning to the transferee, that he accepts same with notice of its invalidity. For instance, a stolen cheque payable to bearer and crossed "no-negociable" may be applied by the thief in payment of his butcher's account. The butcher although he accepts the cheque in good faith, has no better right to it than the thief had, and if payment be stopped, cannot proceed against the drawer; besides the true owner may compel him to surrender it.

It is an inherent quality of a cheque crossed generally, that it must be paid into the credit of the owner with his bankers, and of a cheque crossed specially, that it must be passed to the credit of some one's account with the bank whose crossing it bears. They cannot be paid over the counter of the Bank on which they are drawn. The drawer of a crossed cheque may hold the Bank liable for any damages sustained, should the cheque be paid in cash over the counter, or otherwise than in accordance with the crossing. It will thus be seen that, a crossed cheque in the hands of a person having no banking account is valueless, unless he can dispose of it to some one who has such an account, and although this may be very inconvenient to a "bona fide" holder, it will to a great extent prevent fraud. Specially crossed cheques which may be lost in course of post or stolen will be of no value to dishonest persons. But while such cheques protect the drawer to a very great extent, they will have at least one little drawback, which may render them unpopular, especially considering that the mode of clearing cheques at present in force among the banks is not very expeditious, owing to the absence of a clearing house. A firm receives a number of crossed cheques which must be paid into the bank account, but although they may be in want of immediate cash, they cannot draw for amount paid in until the cheques have been collected from the different banks on whom they are drawn, which does not take place until the following day.

The use of crossed cheques will increase the revenue, because double stamps will be required—the stamp on the cheques paid in, and those on the cheques required to be drawn before the funds can be availed of. An impressed five cent stamp on cheque forms would be a great improvement to the present adhesive stamp, and would certainly facilitate business.

At the present moment, when the cry is, More circulating medium, there is every probability that crossed cheques will be at once availed of, affording, as they do, a safe, convenient and expeditious means of transferring amounts, large or small, from one bank to another, one account to another, or from one town to another, and if the business community do avail themselves of the new law to any great extent, the increase in the number of cheques, and the risk incurred by the banks in collection may induce the bank managers to adopt a clearing house on the scientific system which has proved such a boon to London, Liverpool, Glasgow and other large commercial centres of the United Kingdom.

Our Mails.

(Per P.M.S. Oruba)

London, Feb. 22nd

There has been a fairly good demand for short loans yesterday, but the quotations are lower than they were Thursday. The discount rate has not yet receded much, but signs of weakness are already perceptible, and it is probable that the quotation for three months' bank paper will give way during the next few days, though the continued scarcity of money will prevent the decline being very rapid. The foreign exchanges have been rather unsettled, but finally left off without change. Some more gold has gone into the Bank, and a little is expected to-morrow.

Berlin, Feb. 21

The worst fears of the Government are realized, for the Cartel majority, with the aid of which it has legislated for the last three years, is destroyed, mainly through the victories of the Social Democrats, whose seats in the new Reichstag will be considerably more than doubled. An enormous increase in the ranks of the Social Democrats throughout the Empire and the consequent disappearance of the Cartel majority in the Reichstag—such are the main results of the general election for the first quinquennial German Parliament. The calculations based on the still incomplete returns of the elections are, to some extent, shrewd guesswork; but one thing is pretty certain—namely, that the Socialists, who had only 11 representatives in the last Reichstag, have already made good the capture of 20 seats, 12 of them being new ones, while they have at least 33 test elections to undergo with a very fair chance of victory. These contests they have still to wage with 12 National Liberals, ten Radicals, seven Conservatives, and four Clericals.

But further and fuller returns may even make their prospects seem more favourable still. So far at least their progress throughout Germany seems to have been as marked as here in the capital. In the year 1887 the aggregate of votes cast in Berlin was, roughly, 232,000, while yesterday the number was only 230,000; at any rate less than before. But now comes the startling contrast. In Berlin alone yesterday the Socialists cast about 125,000 votes, the Radicals 75,000, and the Cartellists 36,000, while for 1887 the corresponding figures were 93,000, 67,000, and 71,000. So that within the last three years the Social Democrats have added about 33,000 (some put the figure a little lower) to their ranks in what the Emperor when speaking officially, calls his "Haupt und Residenz Stadt"—*i. e.*, capital and residence city—a city which is thus the greatest stronghold in the German Empire of what many insist on characterizing as a revolutionary and even Nihilistic element.

This was the result which was being silently recorded yesterday during the hours when the Emperor, with his keen taste for militarism, was manœuvring his picked troops on the Tempelhof common, a curious and dramatic enough contrast indeed. But it also ought to be added that, while the Guards were manœuvring, and the Socialists pouring to the ballot-boxes in their silent thousands, the members of the State Council were sitting, pondering on the best means of bettering the condition of these disaffected and even despairing voters, and of thus inducing them to change their political views. One noteworthy feature of yesterday's contest in the capital, its six constituencies (two of which were at once stormed by the Socialists with an irresistible rush, while four have still to be run for in a final heat), was the Socialist candidate in the Second Division, Herr Janiszewski, a Polish bookbinder, who can only speak broken German, scored nearly 20,000 votes, against the 18,000 polled for such a shining light of science and Radical politics as Professor Virchow. This Janiszewski, as it would appear, had suffered martyrdom by imprisonment or some other form of police-inflicted suffering at the hands of those in power, with the result that 20,000 of his indignant sympathizers determined to send him to the Senate Hall of the Empire, there to act as a sort of mute, yet stirring orator. It is true that this poverty-stricken old man with his outlandish tongue has still to stand up for a final round with the greatest anatomist of the age, but even though he may then be beaten, the fact that he has already been placed so high above his natural position by a wave of popular feeling is a remarkable sign of the times. Then there was Singer, the Socialist, with his 79,000 votes, and Liebknecht, the apostle of universal expropriation, with 42,000.

Hamburg too, which, be it remembered, has always, like Berlin, enjoyed the blessings of the minor state of siege, has capitulated to the party for the suppression of whose doctrines the state of siege was devised. Formerly represented by two Socialists and a National Liberal (Herr Woermann, a great African trader and colonial advocate), that Hanse city is now in the hands of the colleagues of Messrs. Liebnecht and Bebel. No wonder that the Opposition Press is now lifting up its bitter voice to mock at the authors of the anti-Socialistic law, which, after having been in rigorous force for nearly twelve years, has apparently done nothing but ripen fruit like this of Hamburg and Berlin, Munich, Breslau, Leipsic, Dresden and other large cities of the Empire. But the repressive law which is valid only till September is now doomed with the destruction of the Cartel majority, and it will be interesting to see whether the Government will content itself with the experiment of trying to keep down sedition without a Socialist law, or whether, as in the case of the Septennate Bill, it will dissolve a Parliament in which it cannot find a majority, and appeal to the nation to decide on the special issue between it and its representatives elect.

Even in Alsace Lorraine one Socialist has been returned, while the Democrat or Popularist party has again been restored to life in the persons of two members, to whom more may yet be added. Yesterday the prospects of the Radicals or Liberalists (Freisinnigen) looked rather gloomy, and their organs were evidently preparing to sing a rather humble song; but to-day they are beginning to chirp up again cheerfully enough, and even the fighting cock of the party, Herr Richter, has taken to crowing to-night in his *Freisinnige Zeitung* over the probability of his fraction emerging from the campaign with an accession of about 15 to its ranks, which would thus raise its strength from 35 to 50.

This may or may not be, but all the same the Democratic element, by whatsoever name designated, has been scoring isolated victories all along the line over the Cartel parties, the chief sufferers being the National Liberals, for whom, as for a pack of turncoats and trimmers, the Opposition fractions have not the least pity, but only exultant clapping of hands. Thus, then, the general outline of the new Reichstag is already clear enough, while a day or two more will sharpen its features into distinct and detailed relief—a Reichstag which, with its heterogeneous Opposition, is destined to play a lively and a fruitful part in the further evolution of the German Empire.

Railway Item

Owing to the recent inundations at Olmos Station, Santa Fe and Cordoba Great Southern Railway, the Board have decided to build a siding and a bridge so as to avoid all possibility of danger and delay.

Messrs. Lucas Gonzalez and Co. have handed over to the Board of Public Works the sum of 20,000 dollars, the balance of the 30,000 dollars paid by the Government for inspection.

The approval of the Government to the proposed new stations on the Sunchales Extension has been communicated to the Engineers' Department.

In spite of the crisis, there appears to be no limit to tramway enterprise, and rails are now spreading all over the city. The Buenos Ayres New Tramways Company have just completed two sections of their line, under the able direction of Messrs W L Morkill and Company, contractors, and Mr Thursby, the company's engineer. The first section of the line is 14½ kilometres, It starts from the corner of Entre Rios and Camino del Puente Alsina, runs down the Camino by Salta to Plaza Constitucion, thence through Calle Constitucion to Pozos, along which it runs to Corrientes and Paraguay. Turning up Paraguay it runs to the Paseo Julio. Then returns from the Paseo Julio to Ayacucho along that street to Paraguay, up Callao to starting point.

The other section, which has a length of 7 kilometres, starts from Boulevard Boedo, between Independencia and Estados Unidos, and runs down Independencia to Paseo Colon. Coming back by the same street, it turns at Entre Rios and runs to Europa, and along that street to Boedo.

The line is an extensive one and will command a large traffic, passing as it does through streets where there are no other lines. The decree authorizing the Company to open the line was issued a week ago, and we learn it was the intention of the contractors to inaugurate it on St. Patrick's Day, but owing to unforeseen difficulties this was not possible, and the line will be opened within the next ten days.

The Lord Mayor has ordered the suspension of the tramway works in Calle Montes de Oca. His Lordship says there is already one track and the law does not allow two.

Engineer P. Reuter has been named on the inspection-staff of the Chilcas and Jujuy Railway, in room of Mr F Bibeloth, who resigned some time ago.

The *S. A. Journal* says:—An amalgamation of Buenos Ayres Tramway Companies is at present on the tapis, and all but completed, which will take in the City of Buenos Ayres Tramways, Anglo-Argentine Tramways, and Lacrosse Tramways. I hear that the capital of the new company will be 1½ million sterling in ordinary shares, 1½ million in 5 per cent preference shares, and 1½ million in 4 per cent debentures. This capital would permit of the company subsequently taking over the Buenos Ayres and Belgrano Tramways, about which they have not yet come to terms. It is understood that three of the directors of the City of Buenos Ayres Tramways will be on the board of the new company, as well as the three directors of the Anglo-Argentine Tramways, and Mr. Sanford, of Messrs. Samuel B. Hale & Co. Mr. G. W. Drabble will be chairman, and Mr. H. J. Lambert, chairman of the Anglo-Argentine Tramways, vice-chairman. The shares of the City of Buenos Ayres Tramways have advanced to 8½-9, and those of the Anglo-Argentine to 4½-4¾ in view of this impending important operation.

The Central Argentine Andine Extensions Railway Company, Limited—Registered by Norton, Rose, Norton and Company, 57½, Old Broad Street, E. C., with a capital of £500,000, in £10 shares. Objects: To acquire upon any terms a railway already constructed between Villa Maria and Villa Mercedes in the Argentine Republic, whether such acquisition be from the Government of the Republic or from any persons interested therein or entitled thereto, and to acquire the concession or right to complete, work and equip such railway, and to enter into a contract or contracts with any corporation, person or persons for the completion and equipment of such railway. To acquire any decrees, concessions, contracts, privileges, &c., for dealing with railway or other public works in the Argentine Republic or elsewhere in South America. There shall not be less than three no more than seven directors. Qualification, 50 shares. Remuneration, £1,250, divisible.

At the last meeting of the Central Argentine Railway shareholders held in London on the 20th ult. the following resolutions were confirmed:—

"(a) The directors may raise money by the issue of debenture stock, to be called four per cent debenture stock, and may make the principal monies repayable at such date, or on such an event, as the directors shall determine, and on the terms that the same shall be repayable at the option of the company, with such premium or premiums (not exceeding ten per cent), and on such other terms, as the directors think proper, and may provide for the payment of such premium in the event of the said principal monies becoming repayable on a voluntary liquidation of the company, the interest to be at the rate of four per cent per annum, and payable on such dates and in such manner as the directors shall determine; and such principal monies, premium and interest to be secured by a floating charge over the company's property in such form as the directors think proper, provided that the total amount of the principal monies represented by such debenture stock, together with any other principal monies raised or borrowed by the company on such floating charges as aforesaid (other than a charge expressly subject to the security for the four per cent debenture stock), under their powers of raising or borrowing money and from time to time outstanding, shall not at any time exceed one-third part of the paid-up capital other than borrowed capital of the company.

"(b) The directors may make provision for the transfer of any portions of the debenture stock in such manner as they may think fit, and all details in reference to the debenture stock, and the form and term of any deed or deeds for securing the same, the regulations for the transfer thereof, and the issue of debenture stock certificates shall be in the absolute discretion of the directors.

"(c) The directors may agree with the holders of the existing six per cent debenture stock certificates or any of such holders to redeem, pay off and cancel the debt represented by such certificates (notwithstanding the date for payment thereof mentioned in the said certificates and the deed for securing the same) by the payment of not exceeding £150 for every £100 principal money and the payment of all interest thereon, provided that such payment of principal money shall only be made by the issue of such an amount of four per cent debenture stock that the annual amount of interest payable on the stock so issued shall not exceed the annual amount of interest payable on the stock so redeemed."

We hold over for another issue the chairman's speech, which, in view of the shine raised by certain financial papers, will be read with interest.

EDITOR'S TABLE.

We were kindly favored yesterday by Messrs. William Paats and Co. with the following very important cablegram, which they received from Mr. William Paats, in Hanover;—

"Bismarck has resigned, as he disapproves of the new home policy of the Emperor; but the latter will continue the same foreign policy, preserving peace in Europe."

Owing to pressure on our space, we are obliged to keep over Minister Pacheco's list of reductions in the Budget. Suffice it to say that the economy affected amounts to 18 million dollars. This fact cannot fail to produce the very best impression in all quarters.

The transcendental financial cats, so long expected, were all let out out of the bag yesterday, and most of them proved to be of the usual wild-cat breed the country is so long accustomed to. The reduction in the Budget is the one thoroughly sound cat of the lot; but its merits are, as usual, knocked quite on the head by the insane proposal to give bounties and "primas" to foment industry, which would speedily swallow up three times the estimated saving of ten millions in public expenditure. We are still moving in the old wretched circle.

The Clerk of the Weather was again in a watery mood yesterday. The three Bs. were unanimous in declaring that the poor man, having read the financial projects from end to end, burst into tears, and down came the "agua". The very heavens weep at our financial woes.

The members and friends of the American and Scotch Churches are to hold a meeting in the hall, corner of Ituzaingo and Rivadavia in Belgrano, on Wednesday night next, to consummate the Union of the two Societies in what will be known as the Union Church of Belgrano. Members of other churches and friends of the movement living in the vicinity and desiring to lend a helping hand are invited to be present.

We would feel greatly obliged to the gas companies if they would tune up more pressure when the evening comes. Yesterday afternoon, when the Clerk of the Weather was weeping his hardest over the financial projects, we could scarcely see our own noses, much less to write, by the miserable gas light.

We had the pleasure yesterday of a visit from the doyen of River Plate journalism, Don Juan Buela, of the *Telegrafo Marítimo*, and his son, Don Juan, jun. We were delighted to see them in the best of health. They returned last night to Montevideo.

The Dons are starting the Peral craze again. In Cadiz the Provincial Deputation—a kind of County Council—have voted 60,000 pesetas to give a bull to the great man when the official trial of his submariner comes off in May. What if it should fail? Whenever there is any question of doing honour to anybody, whether he deserves it or not, the Iberian mind, at home and abroad, rushes inevitably to "the light fantastic toe" as a means of relieving its pent-up feelings. Well, dancing is a fine, healthy amusement, and the Dons and Doñas are good and graceful dancers, which cannot be said of all nations.

Those who have still any money left for a trip to Europe, and we fear they are few, might bear in mind the fact that, in case they should die in the old world, it is possible to get cremated at the Pere la Chaise Cemetery Paris, for the modest sum of three francs.

The Servicio Mensagero has started the Key Insurance system which our friend Mr. William Mackern initiated three years ago. For 150 cents a year a number is registered, this is put on a small metal plate which is attached to the bunch of keys. If they are lost, the finder takes them to the Company and gets a reward of $2; they are then restored to the owner. New subscribers to the Servicio can have their keys insured free for a year.

The Police Review for February 15th was issued yesterday. It is not quite so interesting as usual.

Emperor William evidently means to be his own Chancellor and Minister of Foreign Affairs for the future, no matter who may nominally hold those posts. Everybody asks who General Caprivi is. We remember the same question being asked when the "silent strategist" was first heard of as the real conqueror at Sadowa.

The rumour grows that Lord Mayor Seeber is to be relieved of the thorny Chief Magistracy of the city, and Mr. Hector Quesada, who has just arrived from Europe, will be his successor. There is not much scope at present for Lord Mayors to distinguish themselves, except in the way of economy.

The new Minister of War, at Montevideo, General Villar, has made his debut before the public in a note addressed to the Inspector General of Arms, in which he upholds the right of all the inhabitants of the Republic to read newspapers (if they subscribe) and, condemning an order which had been issued without legal confirmation by his predecessor, prohibiting the reading of the newspaper, *El Centinela*, by the soldiers of the line, removes that foolish interdict, and maintains that soldiers as well as other citizens may read whatever they please.

Capital news has been received from France about the 50 steers from Mr. Alejandro Roca's estancia at Rio Cuarto. In spite of rough weather the Argentine "Bos" proved himself a capital sailor, and was quite fat when he landed at Boulogne sur Mer, that British "refugium peccatorum."

Hear. Hear. We hear with unmixed satisfaction that orders have been given to abolish that abominable nuisance, the Bermejo station for corpses. The Health Board have not hitherto had sufficients cars and horses to send on the coffins direct, but they are ordered, and the nuisance, we are given to understand, will soon cease.

No fewer than three quite young girls, members of well-to-do families, have committed suicide in this city since the month began. A beautiful girl of 18 living in Calle Rioja put an end to her own life yesterday, owing to family troubles. This tendency to self murder amongst the young of the present generation is indeed a terrible sign. Bad bringing up is at the bottom of it.

We acknowledge with many thanks the receipt of a cheque for 40 dols. from the Honble. F.J. Pakenham, H. M. Minister, his yearly donation to the Irish Orphanage.

There was a good deal of quaking yesterday amongst joint stock concerns whose health has been affected by the crisis, on the announcement that Government has decided to send its own medical man to feel their pulse and prescribe for them. Most of them frankly declare that they would sooner die in peace at once than allow a strange doctor—especially a Government doctor—near them. This is a fancy by no means uncommon amongst patients who are past praying for. We notice that several companies have decided to liquidate before the Government doctor knocks at their door. Most of them wish they had never been born, and their unfortunate shareholders are specially in this dejected frame of mind.

The proprietors of *Hansard* recently asked Mr. Parnell his opinion of their scheme for devoting sections of their work to the affairs of England, Scotland Ireland and Wales. "So far as Ireland is concerned", said Mr. Parnell, "this would be a waste of time and money, as she will shortly have a Parliament and a "Hansard" of her own." As an adroit manifesto this could hardly be surpassed.

Never throw anything away, you may find a use for it. For instance, an excellent peg is made by driving a large nail through an empty cotton reel into a wall. Articles suspended from nails only are apt to get torn.

The crisis here is affecting both Banda Oriental and Paraguay. In the former State they are taking in sail and cutting down expenses as if they had a crisis of their own on hand, or expected one; and the Asuncion papers to hand yesterday announce a run on the banks there, and the citizens tumbling over each other in the rush to convert their notes into coin. The merchants there now refuse notes and will only take silver in exchange for their goods. All this shows that this big Republic is the moving spirit of the Plate.

Government has ordered twenty thousand repeating rifles in Austria. If we are to judge by the poor specimen of a cruiser turned out by Austria for this country a few years ago, the rifles have been ordered in the wrong place.

On being asked why he went into bankruptcy, a man replied, "Well, my liabilities were large, my inabilities numerous, and my probabilities unpromising; and so I thought I'd do as my neighbors do."

Tired as we are of alluding to the malodorous communications, we cannot refrain from mentioning that "Como No's" last article in the *Sporting Times*, of February 22nd, is even more scandalous, more unfounded and more offensive than any of the previous libels from the same backbiting pen.

Some people have most disagreeably retentive memories. We were blown up yesterday (but came down again safely) for something that appeared in our columns in the year 1877!!!

The Lord Mayor has made the unpleasant discovery that the old "vasura" ground opposite the Lacroze station does not belong to the city but to the La Plata Government, which intends to sell it in building lots. His lordship, however, is now in such an economical mood that he has implored the owners of the property to give him back the paving stones which the Municipality laid on it. What awful changes the crisis has wrought in the Mayorial mind. Barely a year ago he could think of nothing but Parks, Boulevards, Avenues, grottoes, etc.: now he makes an "ad misericordiam" appeal for a few paving stones. Sweet are the uses of adversity.

Some of the Cordoba papers have renewed their fierce attacks on two or three of their foreign colleagues in this city, which is much to be regretted, as the public had hoped that the unseemly squabble was at an end.

Viva! One of the rising tenors of the day in Italy is a young Argentine of 23, named Stampanoni, born in San Nicolas of Italian parents. He was taught by some professors in Asti, as he was too poor to pay for the Conservatoire in Milan. He made his debut in Asti as Fernando in La Favorita (Gayarre's great part), and the papers praise his voice as magnificent, "going straight to the heart." Another tenor, Bayo, a Spaniard, is also rising fast on the European lyric horizon.

Our new colleague *La Argentina* will make its bow to the public on the 1st prox. New papers by the score may be expected on the scene as the Presidential election draws near.

Our ex d.B.v. telegraphs from Rio that it is very wrong to say that there is any Ministerial unpleasantness there, as all members of the Cabinet live in a state of harmony worthy of cooing doves.

There is a vigorous difference of opinion between the ex and the present director of the Municipal nursery started some time ago to supply the city with plants and trees. Both gentlemen are ventilating their ideas in the papers.

Have any lady readers tried steaming the face to clear the complexion? It has a wonderfully good effect. It can be done very well by holding the face over a saucepan of boiling water for five minutes, and covering the head with a cloth. There is a special apparatus, but it is rather expensive. The skin should be well rubbed dry after.

We beg to thank the Hon. Secs. of the Southern Railway Picnic and Athletic Sports for the kind invitation to same they sent us yesterday. The lunch c

Dr. J. Collis Browne's
CHLORODYNE.
THE ORIGINAL AND ONLY GENUINE
Advice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by D. J. Collis Brown, (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.
CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.
CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.
CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.
CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 5 1880, To J. T. Davenport, Esq., 33, Great Russel Street, Bloomsbury, London
Dear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan; but all over the East. As a remedy for general utility, we must question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are so sorry to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm Conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate Breach of Faith on the part of the Chemist to prescribe and Patient alike. We are, Sir, faithfully yours, Symes and Co., Members of the Pharm. Society of Great Britain. His Excellency the Viceroy's Chemists.
Caution.—Vice-Chancilor Sir W. Page Wood stated that Dr J. Collis Browne, was, undoubtedly, the Inventor of Chlorodine; that the story of the defendant Freeman was deliberately untrue, which he regretted to say, had been sworn to,—See "The Times," July 13, 1864.
Sold in bottles at 1s. 1 1/2d., 2s. 9d., 4s. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.
Caution.—Beware of Piracy and Imitations.

demand became general, sellers began to put up the rates, asking as high as 255½ at one moment and 254 at the close. It seems that there is still gold required for to-morrow's liquidation, so that a further advance is only too probable. For end of month but little was done, and as high as 258 was paid, showing that there is a "descubierto" also to be met here; in this regard it was said that those who had bought from Mr. Schweitzer had sold again, and have now to cover themselves. Stocks showed another relapse, Catalinas dropping to 31, some 7,000 sold, and 31½ for end month, whilst the Sovereign Stock receded from 135 to 130, closing on offer at 131. In Constructors nothing was done, Cedulas were weak all round, P again falling to 53.20 at which they closed.

The following is a summary of operations effected this evening at the second ring:—

The Banco Constructor de La Plata has to call another meeting of shareholders to propound a means of reducing the capital to five millions, as the measure adopted at the meeting last month, to issue bonds in exchange for shares, has been void of result. The resolution also passed at same meeting to call in obligations by means of the sale of properties has also been fruitless, so that the shareholders have their hand full to resolve the point. A syndic has also to be elected and a substitute director to replace Mr. Mauricio Roca who has resigned. The meeting takes place on Sunday next.

Our active Concordia correspondent wired further details to-day of the result of the first day's sale of the Nueva Escocia lands. Thirty-four hectares in town lots were disposed of at an average of 220 gold dollars cash per hectare, the remaining lots being held over till the 25th instant, when a second auction will be held.

The export of live stock continues to give the most excellent result, as according to the report of the Foreign Affairs Minister, the fifty novillos from Mr. Alexander Roca's estancia in Rio Cuarto, shipped in December last, were the object of a pitched battle between the Boulogne-sur-Mer and Paris butchers on their arrival. The sale also gives the most promising pecuniary results, the average price amounting to 442 francs per head and deducting all expenses, which were unusually heavy and can be minimised by arrangement, the average comes out at 181 francs, or say thirty-six dollars gold each. It is interesting to note also that those novillos, although of a fair size and in good condition, were criollos taken off the camp and a fair specimen from which to form calculations.

Mr. W. Scholes, engineer, sails to-morrow in the Vega for England. The City Improvement Works loses in him the last of the old staff of engineers of fourteen years back, when these works, directed by our countryman, Mr. George Higgin, C.E., progressed so rapidly and gave us hopes of their early termination.

The steamer Galicia will leave Montevideo March 23 for Rio Janeiro, Pernambuco, Lisbon, Bordeaux, Plymouth and Liverpool.

The steamer Vega will leave March 22 for Rio Janeiro, Southampton and Antwerp.

The steamer Umberto I. will leave March 24 for Barcelona, Genoa and Naples

The steamer Duca di Galliera will leave March 24 for Las Palmas, Barcelona Genoa and Naples

The *Economist*, discussing the state of the London money market, contains the following allusion to the demands for gold for this country:—

"It is stated that shipments of gold to South America will be resumed before long, and there is always this possibility, but we cannot ascertain that the present rumours are based upon anything definite. Following the Bank movement, the discount houses have reduced their allowance for deposits to 3½ per cent for money at call, and 4 per cent for deposits at notice, and the joint-stock banks now allow 3½ per cent upon their deposits."

This is further dilated upon by *Money*, another financial organ, which has also under date February 22nd a most unkind chapter on Provincial Cedulas. We clip the following from its money article:—

"Then again we have always with us the Argentine demand. The Argentine Republic seems insatiable in its craving for gold. It has had immense sums already, but somehow or other those immense sums have trickled away, and it wants other immense sums as badly as ever. It is said that European bankers are willing to lend the Government fifteen millions sterling, and sanguine people in Buenos Ayres are counting confidently on receiving that immense sum. Of course that is all nonsense. It is impossible that even the most reckless company promoters should commit themselves to engagements to deliver 15 millions sterling to the Argentine Government under existing conditions. But they and the powerful bankers and influential issuing houses may commit themselves to considerable sums. At all events, it is notorious that the Argentine Government has large credits in London, and can take gold.

The R.M.S. La Plata left Rio this morning at eleven a.m. for the Plate.

The steamship Parahyba, Chargeurs Reunis packet, has arrived in Montevideo from Havre with 840 passengers, 900 tons of cargo, 1400 bordaleses of wine for this port and five hundred tons of cargo and a hundred bordalesas of wine for Rosario.

Passengers arrived per s.s. Oruba:—Mr A Bottini, Mr W Strong and son, Dr Hall, Mr Oppenheim, Mr Grant, Mr Silas Jones, Mr and Mrs Smith, Mr W Templeton, Mr D Glacken, wife and four children; Mr J C Hamilton, Mr M S Sanderson, Mr J Miller, Mr J Collet, Mr Juan Barboza, Mr E C Gomez, Mr P G Olivera, Mr Alf Kesler, Mr C T Howard, wifr and three children; Mr and Mrs Conuel and two children, Mr T Coffey, Mr H Thompson, Mr R H Templetor, Mr F Lafourcade, wife and daughter; Mr and Mrs Molinari, Colonel Emerson Ames and Mr F Gordon.

We take the following items from the *River Plate Times*:—

"Five hundred arrobes of wool were sold in Feria yesterday, secondary class, at 4.40 to 4.50 dols.

"The bq. Clotilde has bought 8000 quintals jerked-beef at 30 rls. It is also said that the Spanish bq. Nalon has bought 7000 quintals at 28 rls.

"The Rivadavia brought from Concordia yesterday 725 dols. for C. Smith and 15,540 dols. for the English Bank of the River Plate.

"The Paysandu Saladero has sold eight to ten thousand ox hides to be delivered until the end of April at 5.50dols., and five thousand cow ditto at 5 dols., to be delivered in the Saladero.

"Five hundred fanegas of new wheat were sold in the F.C.C.U. Station yesterday at 4.30 to 4.70 the 110 kilos. Also 100 bags superior at 5 dols.

"Sr. Benito Reyes, of the well-known house of Reyes, Anaut and Co., of this market and Buenos Aires, is seriously ill with an attack of the brain.

"We learn that a well-known importing firm, with branches here and in Buenos Aires, has had to suspend payments within the last few days. This is attributed to the heavy losses experienced in Buenos Aires. More than one house here is in difficulties from the same cause."
